Embargoed for release 7.00 am on Tuesday 10 March 2009

#### **CLOSE BROTHERS GROUP plc**

#### ANNOUNCEMENT OF INTERIM RESULTS

#### FOR THE SIX MONTHS ENDED 31 JANUARY 2009

Financial Highlights	First half 2009	First half 2008
Operating profit before tax	£38.5m	£69.8m
Basic earnings per share	17.4p	31.4p
Adjusted operating profit <sup>1</sup>	£62.0m	£75.3m
Adjusted earnings per share <sup>2</sup>	33.0p	35.1p
Ordinary dividend per share	13.5p	13.5p
Total equity	£678.0m	£720.9m
Total assets	£6.0bn	£5.4bn

<sup>1</sup>Adjusted operating profit is before exceptional items, impairment losses on goodwill, and amortisation of intangible fixed assets on acquisition.

<sup>2</sup>Adjusted earnings per share is before exceptional items, impairment losses on goodwill, amortisation of intangible fixed assets on acquisition, and the tax effect of such adjustments.

#### Colin Keogh, Chief Executive, commenting on the results said:

"The first half of the 2009 financial year has been characterised by difficult and volatile market conditions, and significant changes to the UK and international banking landscape. Nevertheless, the group has delivered a sound overall performance reflecting the quality of our businesses and the diversity of our operations, and we remain soundly funded and well capitalised."

A presentation to analysts and investors will be held at 9.30 am GMT at our offices at 10 Crown Place, London EC2A 4FT. A listen-only dial-in facility will be available by dialling +44 (0) 1452 569 103, conference ID 8867 5351. A recording of this call will be available for replay for two weeks following the presentation by dialling 0800 953 1533 (UK only) or +44 (0) 1452 55 00 00 (UK and International), access number 88675351#. There will also be a live audio webcast available via the Investor Relations section of the website www.closebrothers.co.uk.

#### CHAIRMAN AND CHIEF EXECUTIVE'S STATEMENT

The first half of the 2009 financial year has been characterised by difficult and volatile market conditions, and significant changes to the UK and international banking landscape. Nevertheless, the group has delivered a sound overall performance reflecting the quality of our businesses and the diversity of our operations, and we remain soundly funded and well capitalised.

Adjusted operating profit for the group was £62.0 million (2008: £75.3 million), down 18% year on year but in line with the second half of 2008, as we benefited from a particularly strong performance in the Securities division.

Adjusted earnings per share declined 6% to 33.0p (2008: 35.1p), while basic earnings per share declined 45% to 17.4p (2008: 31.4p).

During the period we incurred exceptional expenses of  $\pounds 4.2$  million related to restructuring, including additional cost saving initiatives in the Asset Management division. Alongside the ongoing restructuring of the Asset Management division we also undertook a review of the goodwill assets in the division in the first half of the financial year in the light of the deterioration of the economic environment. This has resulted in a goodwill impairment charge of  $\pounds 19.0$  million which relates to acquisitions made over a number of years, and reflects the change in market conditions affecting the asset management industry.

#### **Divisional Performance**

In the **Asset Management** division, net new funds was a small positive, as a result of net inflows in our Private Clients business, although market factors have affected the level of funds under management. The restructuring of the division is well under way, and during the period we reorganised our interests in Close Brothers Private Equity and Close Ventures Limited, resulting in the deconsolidation of some £0.6 billion of funds under management. Adjusted operating profit was £6.6 million (2008: £18.0 million).

Performance in the **Banking** division has remained solid. The loan book increased by 3% to £2.3 billion as a result of the acquisition of a premium finance loan book in August 2008. Operating income increased 16% year on year and the net interest margin improved from 8.7% to 9.0%. However the level of bad debts has increased resulting in a 15% decline in adjusted operating profit to £32.0 million.

The **Corporate Finance** division has been affected by low levels of activity in M&A and restructuring, particularly in the UK, and reported an adjusted operating loss of £2.9 million (2008: profit of £4.6 million).

The **Securities** division has performed very well throughout the period and delivered a 39% increase in adjusted operating profit to £33.2 million. Winterflood has experienced good volumes, and in October 2008 recorded its highest monthly activity level ever, at 1.1 million bargains. Mako, our derivatives market-maker associate, also benefited from strong volumes and high volatility in the period, and produced an excellent result.

Our capital base remains strong and comfortably above regulatory requirements, with a core tier 1 capital ratio of 13.3% (31 July 2008: 14.4%) and a total capital ratio of 15.0% (31 July 2008: 16.1%) as at 31 January 2009. We remain soundly funded from a wide range of sources and our £2.3 billion loan book is more than twice covered by committed facilities and deposits.

#### **Interim Dividend**

The board has declared an interim cash dividend of 13.5p per share (2008: 13.5p). This reflects our solid performance in the first half of the financial year and strong capital position, notwithstanding the increasingly challenging market conditions.

The interim dividend will be paid on 15 April 2009 to shareholders on the register as at 20 March 2009.

#### CHAIRMAN AND CHIEF EXECUTIVE'S STATEMENT

#### **Board Changes**

In February we announced the appointment of Preben Prebensen as Chief Executive Officer of Close Brothers Group with effect from 1 April 2009. Preben joins from Catlin Group plc, where he was Chief Investment Officer and a Member of the Group Executive Committee. He was previously Chief Executive of Wellington Group plc, which was acquired by Catlin in 2006, and has held a number of senior management positions at JPMorgan where he worked for over 20 years.

As announced in September 2008, Colin Keogh will be stepping down after 23 years with the group and six as Chief Executive. Colin has played an important part in the growth of Close Brothers, and led the business with a steady hand through some challenging and exciting years. The board thanks him for his significant contribution and wishes him all the best for the future.

During the period we appointed Ray Greenshields to the board as an independent non-executive director. Ray has over 30 years of financial services executive experience, most recently as Managing Director of Barclays Wealth Management.

Sadly, Peter Buckley, an alternate director of the company, passed away after a short period of illness in December 2008. Peter had made a significant contribution as a director of the group over many years.

#### Outlook

We continue to plan for difficult conditions through the remainder of the year. Our focus remains on managing our businesses through the current downturn and improving the operational performance of each of our divisions.

We are confident that our strong businesses and robust financial position will allow us to continue to deliver a solid overall performance in the current market environment, and leave us well placed to take advantage of better conditions when markets recover.

#### **Financial Results**

All data relates to the six month period to 31 January, unless otherwise indicated. Throughout this report, the term "adjusted" refers to income, expenses, profit or earnings before exceptional items (as defined in note 1(j) of our 2008 Annual Report); impairment losses on goodwill; amortisation of intangible fixed assets on acquisition; and the tax effect of such adjustments where applicable.

#### **Financial Highlights**

	First half	First half	
	2009	2008	Change
	£ million	£ million	%
A divisted operating income	266.4	253.0	5
Adjusted operating income			5
Adjusted operating expenses	(181.0)	(168.1)	8
Impairment losses on loans and advances	(23.4)	(9.6)	144
Adjusted operating profit	62.0	75.3	(18)
Exceptional expenses	(4.2)	(5.5)	
Impairment losses on goodwill	(19.0)	-	
Amortisation of intangible fixed assets on acquisition	(0.3)	-	
Operating profit before tax	38.5	69.8	(45)
Adjusted earnings per share	<b>33.0</b> p	35.1p	(6)
Basic earnings per share	17.4p	31.4p	(45)
Ordinary dividend per share	13.5p	13.5p	-

Adjusted operating income was £266.4 million (2008: £253.0 million), a 5% increase. Net interest income increased 14% to £82.7 million (2008: £72.8 million), accounting for 31% (2008: 29%) of adjusted operating income, while non-interest income increased 2% to £183.7 million (2008: £180.2 million).

Adjusted operating expenses increased by 8% to £181.0 million (2008: £168.1 million) primarily due to acquisitions and higher variable costs in Securities. The expense/income ratio (adjusted operating expenses on adjusted operating income, excluding associate income) was 71% (2008: 68%), while the compensation ratio (total staff costs excluding exceptional items on adjusted operating income, excluding associate income) was stable at 45% (2008: 45%).

Impairment losses on loans and advances ("bad debts") in the Banking division increased to  $\pm 23.4$  million (2008:  $\pm 9.6$  million), reflecting the increasingly difficult economic conditions facing borrowers across the lending businesses.

As a result, adjusted operating profit declined 18% to £62.0 million (2008: £75.3 million). This corresponded to an operating margin of 19% (2008: 28%).

Exceptional expenses in the period comprised  $\pounds 4.2$  million of restructuring costs, the majority of which related to cost saving initiatives in the Asset Management division. In the first half of 2008 we incurred  $\pounds 5.5$  million of exceptional advisers' fees. A full segmental analysis of exceptional items can be found in note 2 to the financial statements.

The group recorded a £19.0 million goodwill impairment charge related to a number of past acquisitions in the Asset Management division.

The group also incurred a  $\pm 0.3$  million charge for amortisation of intangible fixed assets on acquisition, related to acquisitions in the Banking division.

On a statutory basis, operating profit before tax was £38.5 million (2008: £69.8 million), down 45%.

#### Financial Results continued

The tax charge for the period was £13.5 million (2008: £21.2 million), corresponding to an effective tax rate of 35% (2008: 30%). The effective tax rate is above the UK corporation tax rate of 28% principally due to goodwill impairment, which is non tax deductible. The effective tax rate on profit before goodwill impairment was 23%. This reflects the increased profit contribution from Mako, which as an associate is included within operating profit in the Consolidated Income Statement on an after tax basis.

Basic earnings per share was 17.4p (2008: 31.4p), a 45% reduction. Adjusted earnings per share was 33.0p (2008: 35.1p), down 6%.

The board has declared an interim cash dividend of 13.5p per share (2008: 13.5p).

#### **Divisional Performance**

Adjusted operating profit in the **Asset Management** division was down 63% to £6.6 million (2008: £18.0 million). This reflects lower Funds under Management ("FuM"), a shift in mix towards lower fee products, and a reduction in Performance fees and investment income.

In the **Banking** division, adjusted operating profit was £32.0 million (2008: £37.7 million), as a 16% increase in operating income was more than offset by an increase in the bad debt provision.

The **Corporate Finance** division has been affected by low activity in M&A and restructuring and posted an adjusted operating loss of £2.9 million (2008: profit of £4.6 million).

In the **Securities** division, adjusted operating profit increased by 39% to £33.2 million (2008: £23.8 million), as a result of a particularly strong performance from Winterflood and Mako.

Adjusted group net costs were £6.9 million (2008: £8.8 million). Group adjusted operating income was £3.0 million (2008: £2.2 million) and group adjusted operating expenses were £9.9 million (2008: £11.0 million).

#### **Divisional Adjusted Operating Profit**

	First hal	f	First half	f	
	2009		2008		Change
	£ million	%	£ million	%	%

Securities	33.2	<b>48</b>	23.8	28	39
	68.9	100	84.1	100	
Group	(6.9)		(8.8)		
Adjusted operating profit	62.0		75.3		

#### **Balance Sheet**

In the six months to 31 January 2009, the loan book increased 3% to £2,307.8 million (31 July 2008: £2,232.2 million). This included the £80 million acquisition of Kaupthing Singer & Friedlander's premium finance business in August 2008. The loan book comprises loans to SMEs and consumers, and the vast majority of loans are secured.

Certificates of deposit and loans and advances to banks increased 3% to £1,687.8 million (31 July 2008: £1,633.5 million).

Floating rate notes ("FRNs") classified as available for sale amounted to  $\pm 773.2$  million (31 July 2008:  $\pm 751.3$  million). These FRNs are issued by a range of financial institutions, and the significant majority are rated AA or above. The FRN portfolio has been marked to market during the period, resulting in a charge to reserves of  $\pm 30.1$  million, net of tax. However, the book value of these assets has increased as a result of currency translation differences.

#### Balance Sheet continued

Total borrowings were £1,877.6 million (31 July 2008: £1,241.5 million), a £636.1 million increase which reflects new debt facilities obtained during the period, and comprised loans and overdrafts from banks, promissory notes and other debt securities, non-recourse borrowings, and subordinated loan capital. Customer deposits were relatively stable at £2,542.7 million (31 July 2008: £2,641.7 million) while deposits by banks decreased £263.8 million to £34.4 million.

As at 31 January 2009 the group held £661.0 million (31 July 2008: £656.8 million) of assets on the balance sheet related to market-making activities, which comprised settlement accounts, long trading positions, and loans to money brokers against stock advanced. These were offset by £568.7 million (31 July 2008: £556.9 million) of corresponding liabilities, related to settlement accounts, short trading positions, and loans from money brokers against stock advanced.

Total equity as at 31 January 2009 was £678.0 million (31 July 2008: £720.4 million). Profit attributable to shareholders of £24.7 million for the first six months was more than offset by £36.2 million paid in respect of the 2008 final dividend; £22.2 million paid in respect of the purchase of shares into Treasury for the purpose of satisfying options grants and share awards; and other movements in equity reserves.

During the period a total of 3.9 million shares have been purchased by the company resulting in 5.7 million of the company shares being held in Treasury as at 31 January 2009.

	31 January 2009	31 July 2008
	£ million	£ million
A spots		
Assets Certificates of deposit and loans and advances to banks	1,687.8	1,633.5
Floating rate notes classified as available for sale	773.2	751.3
Loans and advances to customers	2,307.8	2,232.2
Settlement accounts, long trading positions and stock borrowing	2,507.8 661.0	656.8
Intangible assets	146.2	134.4
Other assets	427.3	344.5
	727.0	544.5
Total assets	6,003.3	5,752.7
Liabilities		
Deposits by customers	2,542.7	2,641.7
Deposits by banks	34.4	298.2
Borrowings	1,877.6	1,241.5
Settlement accounts, short trading positions and stock lending	568.7	556.9
Other liabilities	301.9	294.0
Total liabilities	5,325.3	5,032.3
Equity	678.0	720.4
Total liabilities and equity	6,003.3	5,752.7

#### **Funding and Liquidity**

The group remains soundly funded, and has diversified its sources of funding in a difficult wholesale market. As at 31 January 2009, the group had  $\pounds 2.2$  billion (31 July 2008:  $\pounds 1.8$  billion) of drawn and undrawn committed facilities with an average maturity of 23 months (31 July 2008: 30 months). In addition, the group had  $\pounds 2.5$  billion (31 July 2008:  $\pounds 2.6$  billion) of deposits, including  $\pounds 0.4$  billion (31 July 2008:  $\pounds 0.0$  billion) with a maturity of twelve months or more. This reflects term funds raised in the retail deposit market over the course of the period.

#### Funding and Liquidity continued

As a result, the £2.3 billion loan book is more than twice covered by committed facilities and deposits, giving good headroom and resilience. The average maturity of the loan book as at 31 January 2009 was twelve months (31 July 2008: twelve months).

During the period we raised a  $\leq 390$  million two-year syndicated loan facility in September 2008, and a £400 million one year repo facility, secured against our FRN portfolio, in November 2008. In January 2009, we were granted eligibility to access the Government's Credit Guarantee Scheme, which gives us access to a further potential source of medium-term funding.

#### Capital

The capital base remains comfortably above regulatory requirements, with a core tier 1 capital ratio of 13.3% (31 July 2008: 14.4%) and total capital ratio of 15.0% (31 July 2008: 16.1%).

	31 January 2009	31 July 2008
	<b>Basel II</b>	Basel II
	Pro forma	Pro forma
	£ million	£ million
Risk weighted assets (notional)*	3,989.0	3,804.0
Core tier 1 capital	531.3	547.2
Total regulatory capital	598.5	613.6
Core tier 1 capital ratio	13.3%	14.4%
Total capital ratio	15.0%	16.1%

\*Notional risk weighted assets calculated under Basel II include a notional adjustment for operational and market risk requirements.

Total regulatory capital reduced by £15.1 million during the period to £598.5 million (31 July 2008: £613.6 million) as £43.7 million of earnings pre-goodwill were more than offset by £36.2 million paid in respect of the 2008 final dividend, £22.2 million purchase of our own shares into Treasury, and other movements in equity reserves. Risk weighted assets increased by 5% to £3,989.0 million (31 July 2008: £3,804.0 million), reflecting growth in the loan book and other balance sheet assets.

#### Key Financial Ratios ("KFRs")

	First half	First half
	2009	2008
Operating margin <sup>1</sup>	19%	28%
Expense/income ratio <sup>2</sup>	71%	68%
Compensation ratio <sup>3</sup>	45%	45%
Return on opening capital <sup>4</sup>	9%	13%

<sup>1</sup>Adjusted operating profit on adjusted operating income.

<sup>2</sup>Adjusted operating expenses on adjusted operating income.

<sup>3</sup>Total staff costs excluding exceptional items on adjusted operating income.

<sup>4</sup>Adjusted operating profit after tax and minority interests on opening total equity.

Note: All KFRs exclude associate income, exceptional items, impairment losses on goodwill and amortisation of intangible fixed assets on acquisition.

#### **Divisional Review: Asset Management**

- Funds under Management at £6.9 billion
- Adjusted operating profit down 63% to £7 million
- Management fees/average FuM down 10 bps to 78 bps

#### Key divisional metrics

	First half	First half	
	2009	2008	Change
	£ million	£ million	%
Adjusted operating income	49.9	69.0	(28)
Management fees on FuM	29.4	39.5	(26)
Income on Assets under Administration and deposits	20.7	21.5	(4)
Performance fees and investment income	(0.2)	8.0	(103)
Adjusted operating expenses	(43.3)	(51.0)	(15)
Adjusted operating profit	6.6	18.0	(63)
Management fees/average FuM	78bps	88bps	(11)
Opening FUM	8,195	9,148	(10)
Closing FuM	6,870	8,869	(23)
Average FuM	7,533	9,009	(16)

In the Asset Management division, adjusted operating income was £49.9 million (2008: £69.0 million), a decline of 28%.

Management fees on FuM declined by 26% to £29.4 million (2008: £39.5 million). This was the result of a 16% decline in average FuM, to £7.5 billion (2008: £9.0 billion) and a 10 bps decline in management fees/average FuM to 78 bps, as a result of lower activity levels and changes in the mix of funds towards lower fee products.

Income on Assets under Administration and deposits reduced by 4% to £20.7 million (2008: £21.5 million), primarily reflecting lower margins on deposits as a result of the reduction in interest rates.

Performance fees and investment income were  $\pounds(0.2)$  million (2008:  $\pounds 8.0$  million), as a result of lower income and a mark to market valuation adjustment on the division's corporate private equity investment portfolio during the period.

Adjusted operating expenses were reduced by 15% to  $\pm$ 43.3 million. This reflects the benefit of cost saving initiatives taken in the last financial year; the deconsolidation of Close Brothers Private Equity; and lower variable costs. However, the reduction in costs was more than offset by the decline in adjusted operating income, and as a result the expense/income ratio increased to 87% (2008: 74%) and the compensation ratio increased to 58% (2008: 49%).

During the first half of 2009 the division has identified additional areas for cost reductions, which has resulted in  $\pounds 3.4$  million of restructuring costs which have been recorded as an exceptional item. Together with the steps taken in 2008, this is expected to lead to a reduction in headcount of around 80, or around 10% of the July 2008 level, by the end of the current financial year.

Adjusted operating profit declined by 63% to £6.6 million (2008: £18.0 million). This corresponds to a decline in the operating margin to 13% from 26%.

#### **Divisional Review: Asset Management** continued **Funds under Management**

	Private Clients £ million	Funds £ million	Total £ million
As at 1 August 2008	3,316	4,879	8,195
New funds raised	269	345	614
Redemptions, realisations and withdrawals	(201)	(406)	(607)
Net new funds	68	(61)	7
Market movement	(254)	(470)	(724)
Deconsolidation*	 -	(608)	(608)
As at 31 January 2009	3,130	3,740	6,870
Change	(6)%	(23)%	(16)%

\*Deconsolidation of £608 million of FuM related to Close Brothers Private Equity and Close Ventures Limited.

As at 31 January 2009, FuM were £6.9 billion (31 July 2008: £8.2 billion), a 16% decline. Net new funds was a small positive as a result of a £68 million net inflow in Private Clients, offset by a net outflow of £61 million in Funds. Against a backdrop of very significant market falls in most asset classes, the negative market movement in the period was £724 million (9% of opening FuM). In addition, during the period the division reorganised its interests in Close Brothers Private Equity and Close Ventures Limited, leading to the deconsolidation of £608 million of FuM.

Overall, Private Clients FuM declined by 6% to £3,130 million (31 July 2008: £3,316 million) while Funds FuM declined by 23% to £3,740 million (31 July 2008: £4,879 million).

The investment performance of both Funds and Private Clients was affected by market conditions, although the majority of the private client portfolios outperformed relevant APCIMS indices.

#### Asset Management KFRs

	First half	First half
	2009	2008
Operating margin	13%	26%
Expense/income ratio	87%	74%
Compensation ratio	58%	49%
Net new funds/opening FuM	0.2%	0.5%

Note: All KFRs exclude associate income, exceptional items, impairment losses on goodwill and amortisation of intangible fixed assets on acquisition.

#### **Divisional Review: Banking**

- 3% loan book growth to £2.3 billion
- 16% increase in adjusted operating income to £115 million
- Adjusted operating profit down 15% to £32 million
- Bad debt ratio increased to 2.1%

#### Key divisional metrics

	First half	First half	
	2009	2008	Change
	£ million	£ million	%
Adjusted operating income	115.4	99.8	16
Net interest and fees on loan book	102.3	86.2	19
Treasury and other non-lending income	13.1	13.6	(4)
Adjusted operating expenses	(60.0)	(52.5)	14
Impairment losses on loans and advances	(23.4)	(9.6)	144
Adjusted operating profit	32.0	37.7	(15)

Opening loan book	2,232.2	1,962.5	14
Closing loan book	2,307.8	2,005.8	15
Average net loan book	2,270.0	1,984.2	14

<sup>1</sup>Net interest and fees on average net loans and advances to customers

<sup>2</sup>Impairment losses on average net loans and advances to customers

In the Banking division, adjusted operating income increased by 16% to £115.4 million (2008: £99.8 million). This was the result of 14% growth in average loans and advances to customers ("the loan book"), as well as an increase in the net interest margin to 9.0% (2008: 8.7%), despite increases in funding costs. Treasury and other non-lending income reduced by 4% to £13.1 million (2008: £13.6 million).

Adjusted operating expenses increased 14% to  $\pm 60.0$  million (2008:  $\pm 52.5$  million), primarily reflecting the impact of acquisitions as well as a  $\pm 1.3$  million charge related to the Financial Services Compensation Scheme. This corresponds to an expense/income ratio of 52% (2008: 53%). The compensation ratio also reduced marginally to 30% (2008: 31%).

Impairment losses on loans and advances ("bad debts") increased to £23.4 million (2008: £9.6 million), reflecting the increasingly difficult economic conditions facing borrowers across the lending businesses. This corresponds to a bad debt ratio of 2.1% (2008: 1.0%). The division continues to apply prudent, consistent criteria to lending decisions and bad debt provisioning but is planning for a period of higher bad debts.

As a result, adjusted operating profit declined 15% to £32.0 million (2008: £37.7 million). This corresponds to an operating margin of 28% (2008: 38%) and a return on the average net loan book of 2.8% (2008: 3.8%).

#### Divisional Review: Banking continued

During the first six months of the financial year, the loan book grew by 3% to £2,307.8 million as at 31 January 2009 (31 July 2008: £2,232.2 million). This included the acquisition of an £80 million premium finance loan book in August 2008. Excluding the impact of this acquisition, the loan book was broadly flat overall and in each of the five main lending operations as shown in the table below. This reflected our cautious approach to new lending in the current economic environment.

#### Loan book analysis

	31 January	31 July
	2009	2008
	£ million	£ million
Asset finance	787.3	757.3
Premium finance	471.0	403.8
Property finance	455.9	446.4
Motor finance	408.8	414.3
Invoice finance	184.8	210.4
Closing loan book	2,307.8	2,232.2

The funding position remains sound against a backdrop of reduced market liquidity. As at 31 January 2009, the group had £2.2 billion of committed facilities of which £1.4 billion had a maturity over twelve months. Customer deposits were £2.5 billion, including £0.4 billion with a maturity of twelve months or more. Total deposits include £0.7 billion of offshore customer deposits attributed to the Asset Management division for segmental reporting purposes.

The Bank's long term and short term credit ratings were recently reaffirmed at A2/P1 by Moody's and at A/F1 by Fitch. The outlook by Moody's remains stable, however Fitch changed the outlook on our long term credit rating to negative on 13 February 2009.

#### **Banking KFRs**

Compensation ratio	30%	31%
Return on opening capital <sup>1</sup>	15%	18%
Return on net loan book <sup>2</sup>	2.8%	3.8%

<sup>1</sup>Adjusted operating profit after tax and minority interests on opening total equity.

<sup>2</sup>Banking division adjusted operating profit before tax on the average net loan book.

Note: All KFRs exclude associate income, exceptional items, impairment losses on goodwill and amortisation of intangible fixed assets on acquisition.

#### **Divisional Review: Corporate Finance**

- · Adjusted operating loss of £3 million
- · Advised on 33 transactions

#### Key divisional metrics

	First half	First half	
	2009	2008	Change
	£ million	£ million	%
Adjusted operating income	17.3	26.2	(34)
Adjusted operating expenses	(20.2)	(21.6)	(6)
Adjusted operating (loss)/profit	(2.9)	4.6	(163)
Number of transactions	33	50	(34)

In the Corporate Finance division, adjusted operating income was £17.3 million (2008: £26.2 million), a 34% decline, reflecting low levels of activity particularly in the UK. The number of transactions advised on also declined 34%, to 33 (2008: 50), with income per transaction stable.

Corporate Finance experienced lower activity in both M&A and Debt advisory and restructuring, which accounted for 86% (2008: 85%) and 14% (2008: 15%) of income in the period, respectively. The UK accounted for 26% (2008: 48%) of total operating income, while the French, German and Spanish operations accounted for 28%, 25% and 21% respectively (2008: 52% combined).

Adjusted operating expenses were reduced by 6% to £20.2 million (2008: £21.6 million), reflecting lower bonus costs, partly offset by the consolidation of the Spanish operation, Atlas Capital Close Brothers, where the group acquired the outstanding 55% in September 2008. Adjusted operating expenses exclude £0.1 million of exceptional restructuring costs related to cost reductions in the Spanish operation.

The adjusted operating loss for the period was £2.9 million (2008: profit of £4.6 million).

	First half	First half
	2009	2008
Operating margin	(20)%	16%
Expense/income ratio	120%	84%
Compensation ratio	74%	60%

Note: All KFRs exclude associate income, exceptional items, impairment losses on goodwill and amortisation of intangible fixed assets on acquisition.

#### **Divisional Review: Securities**

- · Adjusted operating profit up 39% to £33 million
- Winterflood bargains per trading day increased 34% to 38,000
- · Mako generated £13 million of associate income

#### Key divisional metrics

	First half	First half	
	2009	2008	Change
	£ million	£ million	%
Adjusted operating income	80.8	55.8	45
Adjusted operating expenses	(47.6)	(32.0)	49
Adjusted operating profit	33.2	23.8	39

In the Securities division, total adjusted operating income increased 45% to £80.8 million (2008: £55.8 million). This includes £12.7 million (2008: £4.5 million) of associate income from our 49.9% stake in Mako. Total adjusted operating profit for the division increased 39% to £33.2 million (2008: £23.8 million), as a result of a particularly strong performance from Winterflood and Mako.

#### **Key Winterflood metrics**

	First half	First half	
	2009	2008	Change
	£ million	£ million	%
Adjusted operating income	55.0	38.6	42
Adjusted operating expenses	(36.3)	(26.8)	35
Adjusted operating profit	18.7	11.8	58
Number of bargains (million)	4.8	3.6	33
Average bargains per trading day	37,861	28,197	34
Income per bargain	£11.46	£10.72	7

**Winterflood** adjusted operating income was £55.0 million (2008: £38.6 million), a 42% increase. This was the result of a significant increase in trading volumes with average bargains per trading day up 34% to 37,861 (2008: 28,197) benefiting from retail activity in financial stocks and an increased focus on counterparty risk among market participants. Income per bargain increased 7% to £11.46 (2008: £10.72).

Adjusted operating expenses increased 35% reflecting higher variable costs as a result of strong trading performance.

Adjusted operating profit increased 58% to £18.7 million (2008: £11.8 million).

#### **Key Seydler metrics**

	First half	First half	
	2009	2008	Change
	£ million	£ million	%
Adjusted operating income	13.1	12.7	3
Adjusted operating expenses	(11.3)	(5.2)	117
Adjusted operating profit	1.8	7.5	(76)

#### Divisional Review: Securities continued

Adjusted operating income at **Seydler** was £13.1 million (2008: £12.7 million), a 3% increase reflecting continued challenging conditions in the German retail market.

Adjusted operating expenses were £11.3 million (2008: £5.2 million). Expenses in the prior year period include the impact of the reversal of a £4.1 million provision originally charged in the prior two years. Operating profit for the first half was £1.8 million (2008: £7.5 million, including the impact of the provision reversal).

#### Key Mako metrics

		Four months to
	First half	31 January
	2009	$2008^{1}$
	£ million	£ million
Adjusted operating profit	17.4	4.5
Tax on adjusted operating profit	4.7	1.6
Profit after tax	12.7	2.9
Number of contracts (million) <sup>2</sup>	46.0	40.2

<sup>1</sup>49.9% acquired in October 2007.

<sup>2</sup>Total number of contracts for Mako.

The investment in **Mako** generated £12.7 million of post tax associate income. Mako benefited from high volatility during the period. The fixed income desk in particular benefited from market activity related to interest rate movements.

#### Securities KFRs

	First half	First half
	2009	2008
Operating margin	30%	38%
Expense/income ratio	70%	62%
Compensation ratio	44%	44%

Note: All KFRs exclude associate income, exceptional items, impairment losses on goodwill and amortisation of intangible fixed assets on acquisition.

#### PRINCIPAL RISKS AND UNCERTAINTIES

The group's risk management and internal control systems are designed to identify, monitor, measure and manage the principal financial and non-financial risks facing the group. These risks are set out in the 2008 Annual Report and on the group's website at www.closebrothers.co.uk/RiskManagement.asp. There has been significant change in the external environment in which the group operates since its 2008 Annual Report was published. However, the group's risk management and internal control systems detailed in that 2008 Annual Report have enabled the group to trade profitably during some of the most challenging and unpredictable trading conditions it has experienced.

The principal risks and uncertainties foreseen in the second six months of the year are outlined below. The risks outlined should not be regarded as a comprehensive list of all the risks and uncertainties the group may potentially face in the period.

#### **Economic Conditions**

The economic outlook in all the markets in which the group undertakes its activities has deteriorated markedly in the first six months of the financial year. The outlook for the next six months is significantly uncertain and therefore the impact of worsening economic conditions on the group's customers and markets has the potential to adversely impact the group's business plans and earnings. The group's risk management, internal control systems and overall business model are designed so as to enable the group to continue to trade profitably through downturns in the economic cycle.

#### **Regulatory Change**

The regulatory environment is expected to change significantly in the near future in response to the banking crisis of late 2008. These changes have the potential to impact the group in terms of the cost of compliance with uncertainty about regulatory requirements. The group continues to maintain a conservative approach with a strong, well capitalised balance sheet and believes it is well placed to react to regulatory change.

#### Funding

There is significant uncertainty surrounding credit markets and it is possible that further deterioration in those markets may occur. The group requires access to sources of funding in order to grow its business and achieve future objectives. The dislocation seen in credit markets in the second half of 2008 increases the risk that the group will not be able to obtain access to funding as its existing facilities fall due. However, despite the credit market dislocation, the group has successfully raised over £1 billion in the wholesale and retail markets since 31 July 2008, reflecting its strong capital position.

#### **Counterparty Exposure**

The group has material cash and cash equivalent assets with individual financial institutions. A failure of one or more of these financial institutions would have a material impact on the group's financial position. The group mitigates this risk by setting maximum individual counterparty limits which are monitored daily.

#### **Key Personnel**

The success of the group is closely linked to the abilities and experience of its employees. The earnings of the group could be adversely affected by the loss of the services of certain key teams. The group has succession plans in place and reward and incentive schemes are regularly reviewed.

#### **IT Infrastructure**

A number of the group's banking and securities trading businesses are highly reliant on their IT infrastructure in their daily operations. The businesses keep their IT systems and contingency plans under constant review to ensure they can continue to adequately support ongoing operations.

#### DIRECTORS' RESPONSIBILITY STATEMENT

We confirm that to the best of our knowledge:

- (a) The condensed set of consolidated financial statements has been prepared in accordance with IAS 34 "Interim Financial Reporting";
- (b) The Interim Report 2009 includes a fair review of the information required by Disclosure Transparency Rule 4.2.7R (indication of important events during the first six months and description of principal risks and uncertainties for the remaining six months of the year); and
- (c) The Interim Report 2009 includes a fair review of the information required by Disclosure Transparency Rule 4.2.8R (disclosure of related parties' transactions and changes therein).

By order of the board

PSS Macpherson Chairman CD Keogh Chief Executive

10 March 2009

#### INDEPENDENT REVIEW REPORT

#### Independent Review Report to Close Brothers Group plc

We have been engaged by the company to review the condensed set of consolidated financial statements in the Interim Report 2009 for the six months ended 31 January 2009 which comprises the Consolidated Income Statement, the Consolidated Balance Sheet, the Consolidated Statement of Recognised Income and Expense, the Consolidated Cash Flow Statement and related notes 1 to 15. We have read the other information contained in the Interim Report 2009 and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the company in accordance with International Standard on Review Engagements (UK and Ireland) 2410 issued by the Auditing Practices Board. Our work has been undertaken so that we might state to the company those matters we are required to state to them in an independent review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our review work, for this report, or for the conclusions we have formed.

#### **Directors' responsibilities**

The Interim Report 2009 is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the Interim Report 2009 in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.

As disclosed in note 1, the annual financial statements of the group are prepared in accordance with International Financial Reporting Standards as adopted by the European Union. The condensed set of consolidated financial statements included in this Interim Report 2009 has been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as adopted by the European Union.

#### Our responsibility

Our responsibility is to express to the company a conclusion on the condensed set of consolidated financial statements in the Interim Report 2009 based on our review.

#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Auditing Practices Board for use in the United Kingdom. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of consolidated financial statements in the Interim Report 2009 for the six months ended 31 January 2009 is not prepared, in all material respects, in accordance with International Accounting Standard 34 as adopted by the European Union and the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.

**Deloitte LLP** Chartered Accountants and Statutory Auditors London, UK 10 March 2009

#### 1. Basis of preparation and accounting policies

The interim financial information has been prepared in accordance with the Disclosure and Transparency Rules of the Financial Services Authority and in accordance with International Accounting Standard ("IAS") 34 – "Interim Financial Reporting". The consolidated financial statements incorporate the individual financial statements of Close Brothers Group plc and the entities it controls, using the acquisition method of accounting. They represent condensed financial statements in accordance with IAS 34.

After making enquiries, the directors have a reasonable expectation that the company and the group have adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the half yearly condensed financial statements. The accounting policies, presentation and methods of computation used are consistent with those set out in the group's latest annual audited financial statements.

The preparation of the Interim Report requires management to make estimates and assumptions that affect the reported income and expense, assets and liabilities and disclosure of contingencies at the date of the Interim Report. Although these estimates and assumptions are based on management's best judgement at that date, actual results may differ from these estimates.

The Interim Report is unaudited and does not constitute statutory accounts within the meaning of Section 240 of the Companies Act 1985. However, the information has been reviewed by the company's auditors, Deloitte LLP, and their report appears on page 17.

The financial information for the year ended 31 July 2008 contained within this Interim Report does not constitute statutory accounts as defined in Section 240 of the Companies Act 1985. A copy of those statutory accounts has been reported on by Deloitte LLP and delivered to the Registrar of Companies. The report of the auditors on those statutory accounts was unqualified and did not contain a statement under Section 237(2) or (3) of the Companies Act 1985.

#### 2. Segmental analysis

The directors manage the group primarily by class of business and present the segmental analysis on that basis. The group's activities are organised in four primary divisions namely Asset Management, Banking, Corporate Finance and Securities.

Divisions charge market prices for services rendered to other parts of the group. Funding charges between segments are determined by the Banking division's treasury operation having regard to commercial demands. Substantially all of the group's activities and revenue are located within the British Isles.

Profit after tax and minority interests	24.0	52.5	4.7	28.9	(20.1)	90.0

For the year ended 31 July 2008, the operating income before exceptional items and the operating profit before tax of the Securities division included  $\pounds$ 7.2 million relating to its share of profit of associates.

#### 3. Exceptional items

	Six month	Six months ended 31 January	
	31 Jan		
	2009	2008	2008
	Unaudited	Unaudited	Audited
	£ million	£ million	£ million
Exceptional expenses			
Advisers' fees in respect of potential offers for the group	-	(5.5)	(5.0)
Restructuring costs	(4.2)	-	(5.0)
	(4.2)	(5.5)	(10.0)

#### 4. Goodwill impairment

It is the group's policy to test goodwill annually, and to perform an impairment test more frequently when there are indications that conditions have changed since the last goodwill impairment test that would result in a different outcome.

As a result of the deterioration in the economic environment, a review was carried out at 31 January 2009 for indications of impairment since 31 July 2008 for each of our operating divisions. Detailed impairment testing was subsequently performed where such indications existed and an impairment charge of £19.0 million relating to the Asset Management division has been recognised as impairment losses on goodwill in the Consolidated Income Statement.

#### 5. Tax expense

The effective tax rate for the period is 35.1% (six months ended 31 January 2008: 30.4%; year ended 31 July 2008: 27.4%), representing the best estimate of the annual effective tax rate expected for the full year, applied to the operating profit before tax for the six month period.

The effective tax rate for the period is above the UK corporation tax rate of 28% due to goodwill impairment, other disallowable expenditure and a reduction in the deferred tax asset relating to employee benefits. These effects are offset by the inclusion of the share of profit of associates in the Consolidated Income Statement on an after tax basis in accordance with IAS 1 "Presentation of financial statements" and by the net lower tax rates applied to profits arising outside the UK.

#### 6. Earnings per share

Earnings per share is presented on four bases: basic; diluted; adjusted basic; and adjusted diluted. Basic earnings per share is in respect of all activities and diluted earnings per share takes into account the dilution effects which would arise on the conversion or vesting of share options and share awards in issue during the period. Adjusted basic earnings per share excludes exceptional items, goodwill impairment and amortisation of intangible fixed assets on acquisition and the tax effect of such adjustments to enable comparison of the underlying earnings of the business with prior periods and adjusted diluted earnings per share takes into account the same dilution effects as for diluted earnings per share described above.

#### 6. Earnings per share continued

Participation in a non-financial undertaking	(2.7)	(12.8)	(6.5)
Other regulatory adjustments	(5.9)	(12.8)	(8.5)
	(3.3)	(7.7)	(0.5)
Total regulatory capital	598.5	626.1	613.6
Risk weighted assets (notional)			
Credit and counterparty risk	2,760.6	2,369.9	2,542.8
Operational risk*	1,099.9	1,062.3	1,099.9
Market risk*	128.5	134.6	161.3
	3,989.0	3,566.8	3,804.0
	%	%	%
Core tier 1 capital ratio	13.3	15.7	14.4
Total capital ratio	15.0	17.6	16.1

\*Operational and market risk include a notional adjustment at 8% in order to determine notional risk weighted assets under Basel II.

#### 13. Contingent liabilities

A principal subsidiary of the group, Close Brothers Limited, by virtue of being a Financial Services Authority regulated deposit taker, contributes to the Financial Services Compensation Scheme ("FSCS") which provides compensation to customers of financial institutions in the event that an institution is unable, or is likely to be unable, to pay claims against it. In order to meet its obligations to the depositors of a number of institutions which failed last year the FSCS has borrowed amounts from HM Treasury on an interest only basis to September 2011. It is anticipated that these borrowings will be repaid wholly or substantially from the realisation of the assets of these institutions. However, if the assets of these institutions are insufficient, the FSCS will recoup any shortfalls in the form of additional levies based on the level of market participation of individual institutions. At the date of this Interim Report it is not possible to estimate with any certainty the amount or timing of any such additional levies.

The FSCS raises annual levies from the banking industry to meets its management expenses and compensation costs and individual institutions make payments based on their level of market participation. The group has accrued  $\pounds 1.3$  million for its share of levies that will be raised by the FSCS including the interest on the loan from HM Treasury in respect of the levy years to 31 March 2010.

#### 14. Related party transactions

Related party transactions, including salary and benefits provided to directors and key management, were not material to the financial position or performance of the group during the period. There were no changes to the type and nature of the related party transactions disclosed in the 2008 Annual Report that could have a material effect on the financial position and performance of the group in the six months to 31 January 2009.

## 15. Consolidated cash flow statement reconciliation

#### 15. Consolidated cash flow statement reconciliation continued

Cash and cash equivalents comprise balances which have an original maturity of three months or less, together with highly liquid investments. The portfolio of floating rate notes classified as available for sale has been reclassified during the period for cash flow presentation purposes since the majority of the portfolio has been hedged as collateral for sale and repurchase agreements and the market for these instruments is no longer regarded as highly liquid due to the prevailing economic environment.

#### **Cautionary statement**

This Interim Report has been prepared solely for existing members of the company in compliance with the Disclosure and Transparency Rules of the UK Financial Services Authority and is not audited. Statements in this Report reflect the knowledge and information available at the time of its preparation. Certain statements included or incorporated by reference within this Report may constitute "forward-looking statements" in respect of the group's operations, performance, prospects and/or financial condition. By their nature, forward looking statements involve a number of risks, uncertainties and assumptions and actual results or events may differ materially from those expressed or implied by those statements. Accordingly, no assurance can be given that any particular expectation will be met and reliance should not be placed on any forward-looking statement. Additionally, forward-looking statements regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. No responsibility or obligation is accepted to update or revise any forward-looking statement resulting from new information, future events or otherwise. Nothing in this Report should be construed as a profit forecast. This Report does not constitute or form part of any offer or invitation to sell, or any solicitation of any offer to purchase any shares in the company, nor shall it or any part of it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or commitment or investment decisions relating thereto, nor does it constitute a recommendation regarding the shares of the company. Past performance cannot be relied upon as a guide to future performance. Liability arising from anything in this Report shall be governed by English Law. Nothing in this Report shall exclude any liability under applicable laws that cannot be excluded in accordance with such laws.
